5.1 BOB.CH MyCockpit Dashboard (moke-ups)

Design of wireframes and make-ups of the Maycockpit Dashboard for desktop and mobile,, where a user can find all the most important information about his/her credit.

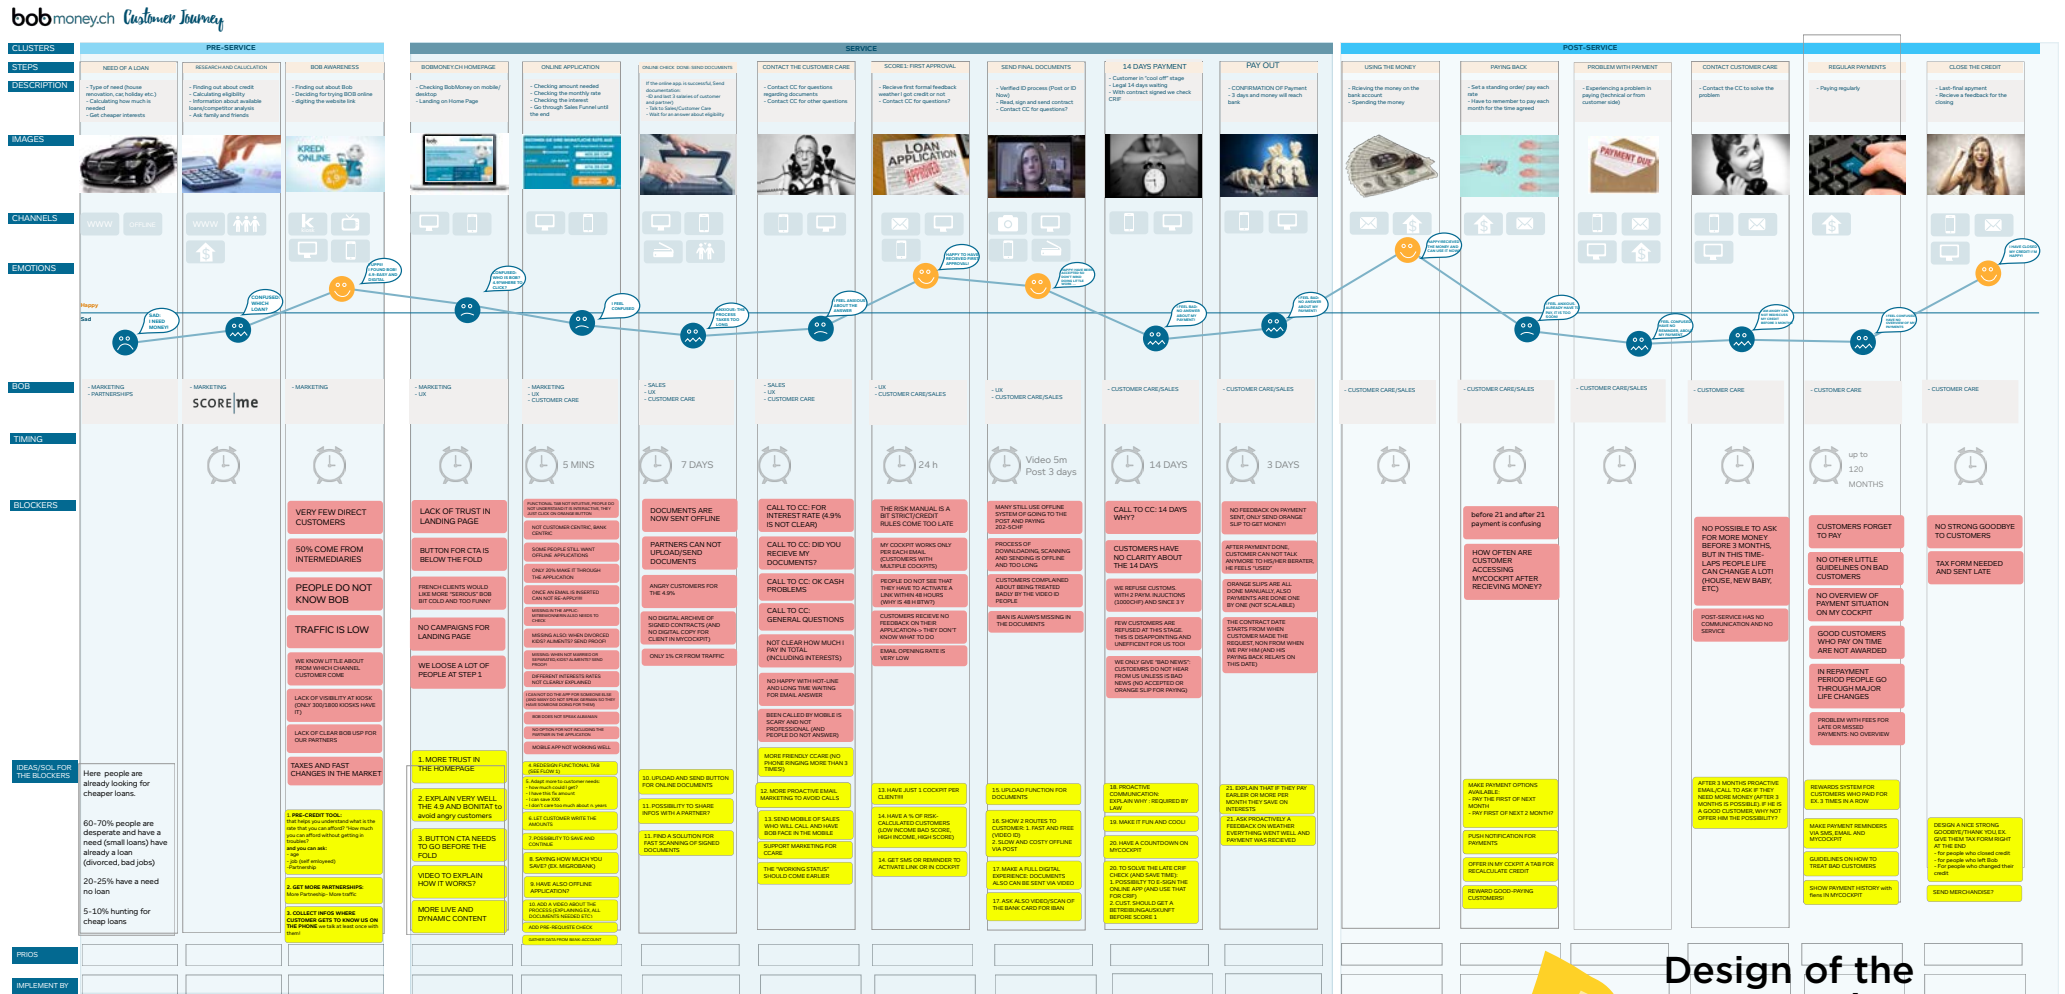

Design of the make-ups

6

BOB.CH Design of the Customer Journey

At bob.ch no one has ever done this before: drawing the whole customer journey from when someone needs a loan till when he/she pays back the loan. Here I designed the customer journey divided in steps: each step has a task associated to it, an emotional icon (how the customer is feeling) and all the blockers (in red) with possible solutions (yellow) to improve the user experience.

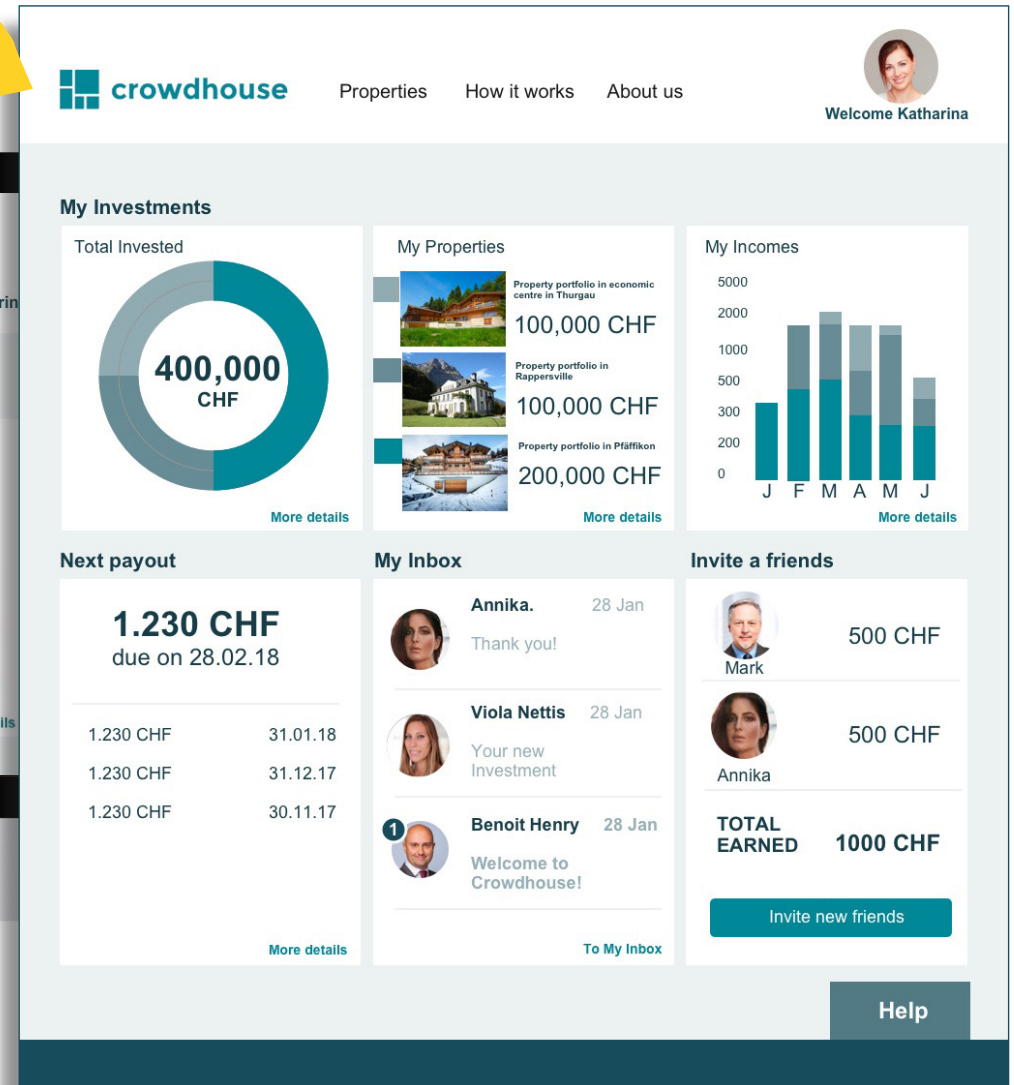

Design of the customer journey, after interviewing users and stakeholders

7 CROWDHOUSE.CH Dashboard

UX design work for Crowdhouse.ch, a company offering investment opportunities in the real estate sector. They wanted to improve the existing dashboard. I created a visually appealing, simple and big dashboard where the customer can see her/his investments at glance. I find important, as it is a Real estate business (so somehow more tangible than mere money), to display the properties too.

Design of the new dashboard (wire-frames and final make-ups)

8

DEINDEAL.CH

Brand Identity, Ux and UI of the website deindeal.ch, the biggest e-commerce platform for coupons and lifestyle products in Switzerland.

DeinDeal desktop

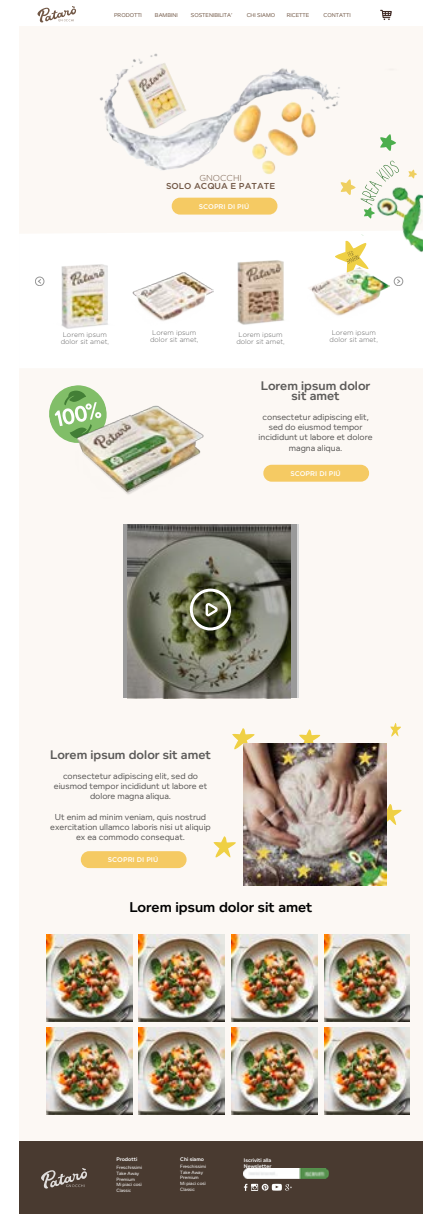

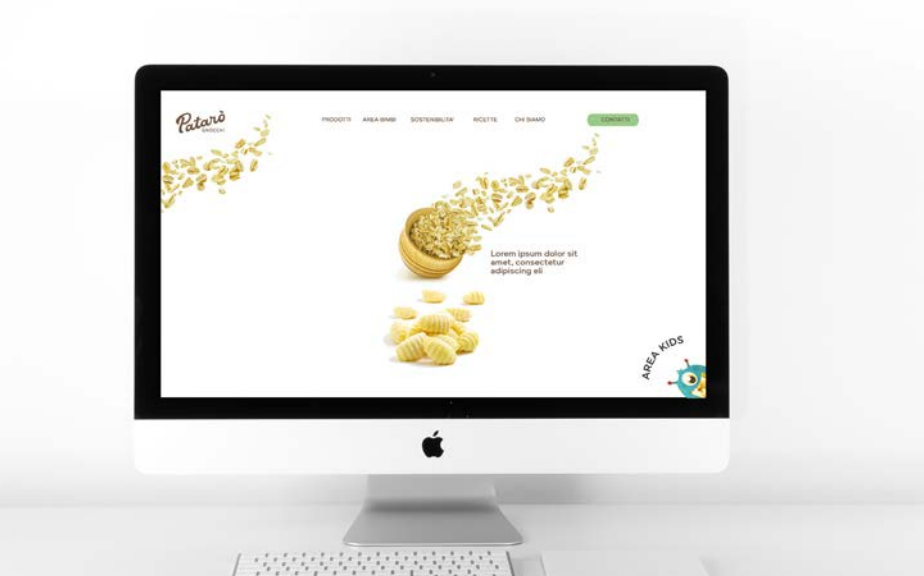

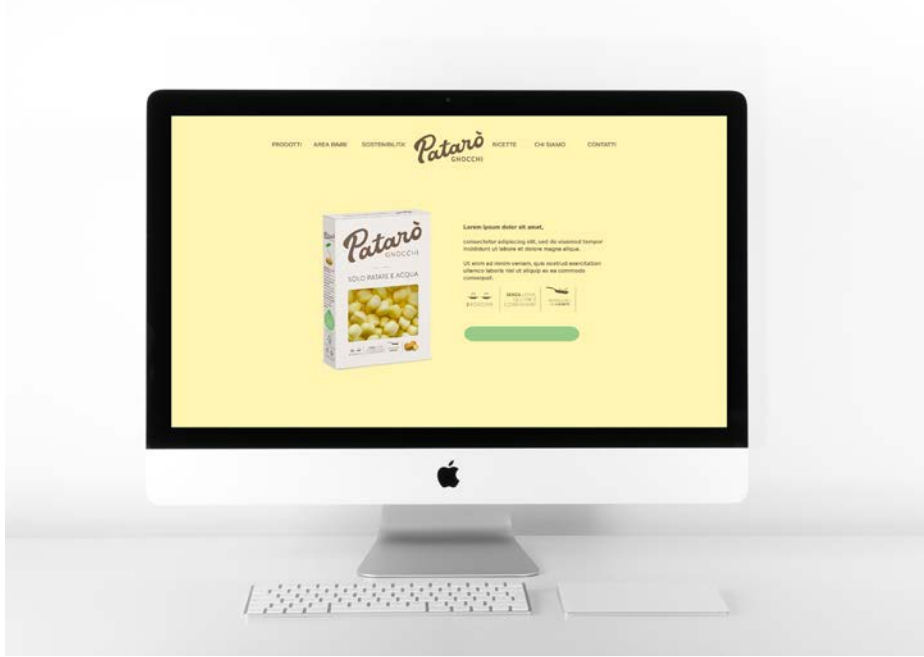

DeinDeal mobile

check out the final result here: www.deindeal.ch

ERBA CIPOLLINA - UX Food site

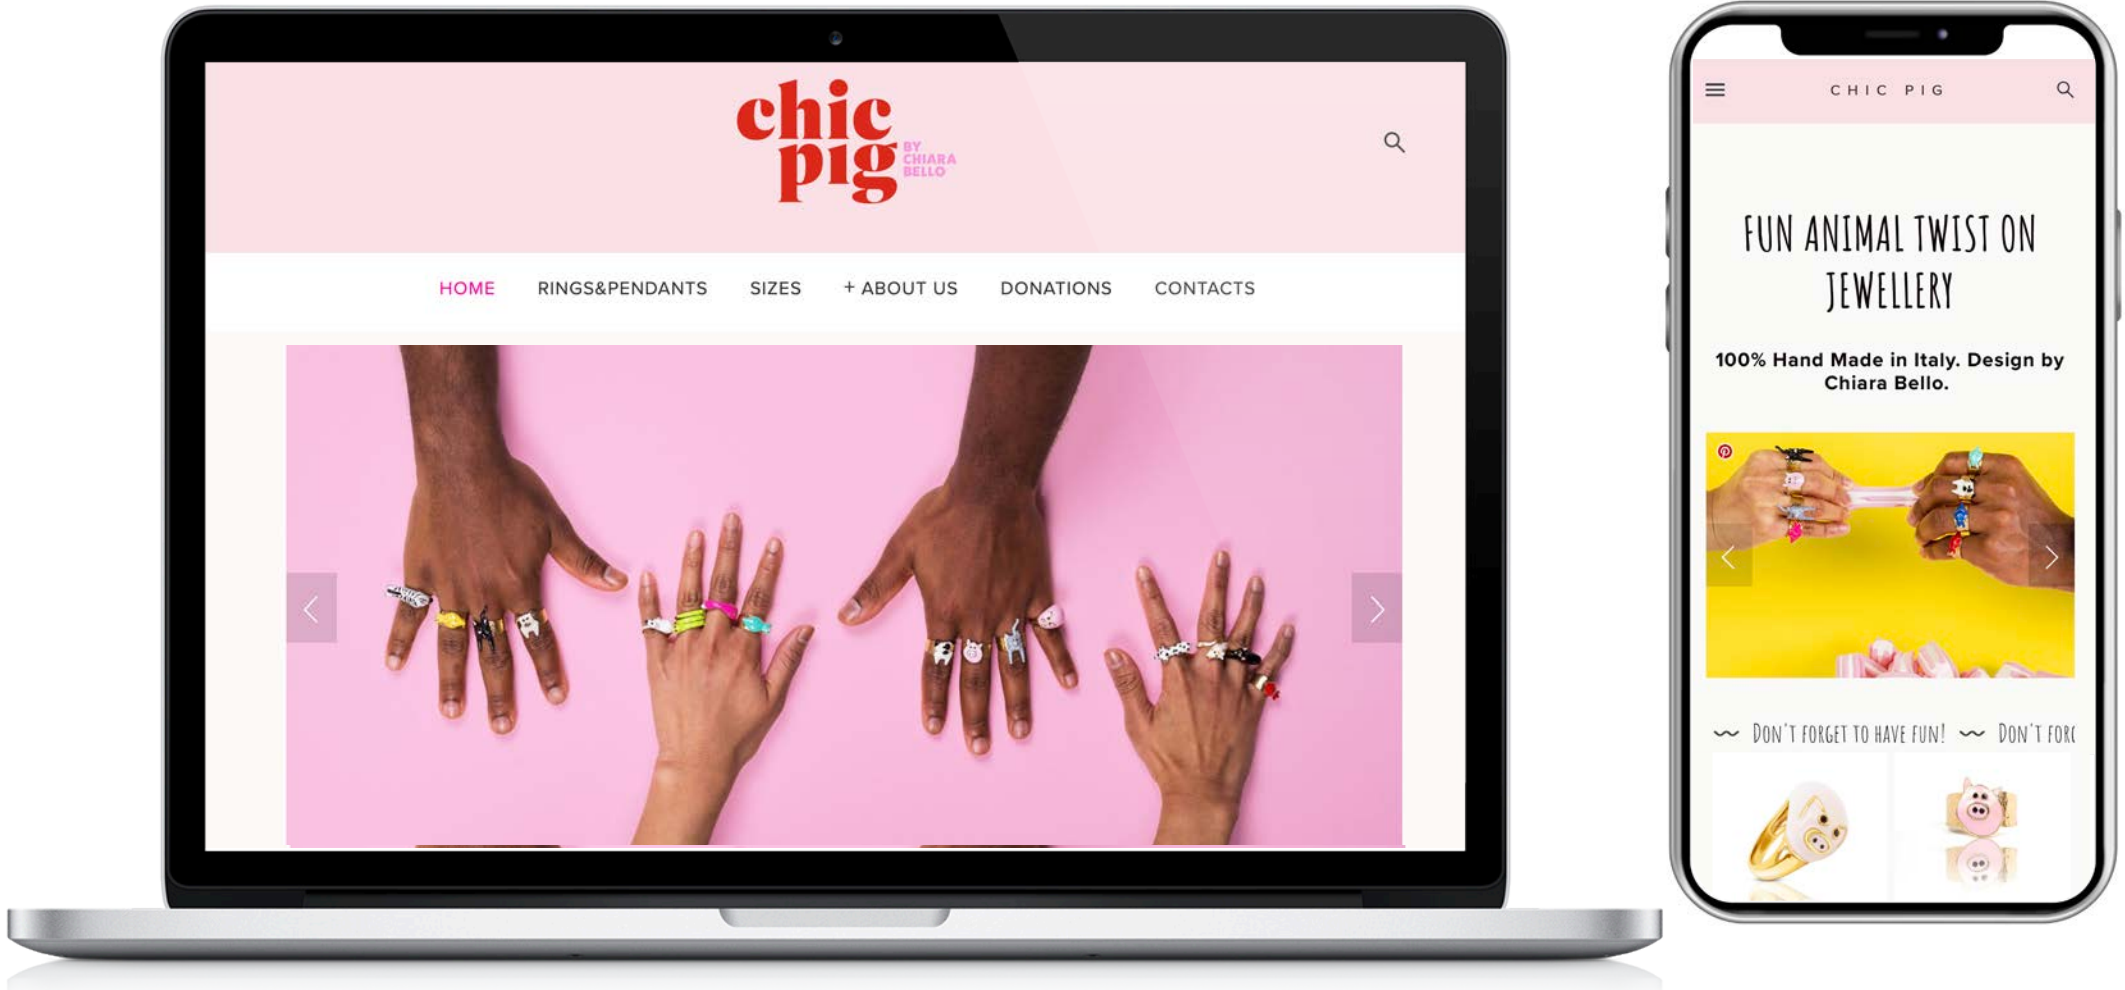

UX design, Wireframing and make-ups of a Food website

10

CHIC PIG UX and Site

UX design and creation from scratch of the Chic Pig website, my own jewellery brand inspired by fun animals

check out the final result here: www.chicpig.com

“The best way to predict the future is to invent it”*.

(Alan Kay)

* this is my favorite quote!
